**Student Support Team
Bridgwater & Taunton College
Bath Road
Bridgwater
TA6 4PZ**

Once we have received the application form along with the required evidence we will assess the student in respect of the compulsory costs related to their course. If they have been successful we shall notify them by letter or email of the amount they have been awarded and how these funds will be paid. The majority of awards made from the 16-19 Bursaries and Discretionary Learner Support Funds are transferred internally to the relevant department. If the student has been awarded funds that are paid directly to them, they shall be informed of when and how this money will be paid.

11 General Attendance Requirements and Monitoring

- 11.1 Students who receive support from any of the aforementioned schemes, will be required to attend timetabled lessons at a minimum level of 90%. Any student who falls below this level may have their support suspended or withdrawn. Students who may find this level of attendance difficult due to disability or caring responsibilities should notify Student Support as soon as possible to allow us to make necessary adjustments.

12 Appeals Procedure

- 12.1 If a student has been refused payment from the 16-19 Bursary (including Vulnerable Groups) or Discretionary Learner Support Fund and they believe our decision is wrong, or if they believe that the level of support they have been offered is wrong, they can make an appeal against our decision.

12.2 Grounds for appeal

Eligibility – The student will have been refused assistance if we do not believe that they meet the eligibility criteria. Our letter explains why we believe they do not qualify for any support. If the student decides to make an appeal against our decision to refuse support because they believe that they do in fact meet the eligibility criteria, **they will be required to explain in writing why they feel they**

qualify and may have to provide us with additional documentary evidence to support their appeal

Level of support - If the student is considering making an appeal against the level of support they have been offered, **they will be required to explain in writing why they feel that they may be entitled to additional support and may have to provide us with additional documentary evidence to support their appeal (for example, a bank statement).**

The student will need to think carefully about whether or not they have a good reason for asking us to reconsider the level of support available to them. Their application will already have received careful consideration and an appeal is not likely to be successful unless they can provide relevant new information that was not considered in their original assessment.

12.3 **Procedure**

If the student decides that they have grounds to make an appeal, they must write to the Director of Student Services within 14 days of receipt of the allocation or letter of decline.

The original application, appeal and any other information the student supplies to us will be given fresh consideration. The appeal will be dealt with within 15 working days by a panel consisting of a member of the Student Support team, the student's tutor (who will represent their interests) and the Director of Student Services. The student will be advised of the outcome in writing.

13 **Review of Policy**

13.1 This policy will be reviewed annually.
